

Position Opening for Assistant Professor
School of Engineering, Tokyo Institute of Technology

1. Position Title:
Assistant Professor
2. Area:
Candidates should have expertise in fundamental and applied research areas related to solar cells such as thin-film compound semiconductor solar cells, and Si solar cells. The applicant should indicate strong interests and experienced skills in solid-state physics and devices.
3. Qualification:
Ph.D. Degree (at the job starting date). Proficiency in Japanese and English language is required.
4. Job Starting Date:
As early as possible after April 1st, 2016.
5. Duration and Terms:
5 year contract, renewable once for additional at most 5 years.
Annual salary will be paid according to the National University Corporation Tokyo Institute of Technology Regulations on Wage and Salary for Staff on the Annual Salary System.
6. Job Location:
School of Engineering (Electrical and Electronic Engineering)
7. Required Documents:
 - (1) Curriculum vitae with applicant's signature and photo,
 - (2) List of publications,
 - (3) Photocopies of selected (at most three) publications,
 - (4) Descriptions of research achievement and future research projects,
 - (5) List of names, addresses, phone numbers, and e-mail addresses of two professional references.The documents should be prepared in PDF or Word format, and one photocopy and an electronic file (e.g. USB) should be sent the following address. The documents will not be returned to the applicant.
8. Application Deadline:
Application package should arrive at the address specified below no later than Nov. 13, 2015.
9. How to Apply, and Contact Person
Send the required documents by certified mail with "Application for Assistant Professor in Electrical and Electronic Engineering" written on the envelope in red to:
Prof. Akira YAMADA
Department of Physical Electronics, Tokyo Institute of Technology
2-12-1 NE-16, O-okayama, Meguro-ku, Tokyo 152-8552, Japan.
E-mail: yamada.a.ac@m.titech.ac.jp
Tel: +81-3-5734-2698, Fax: +81-3-5734-2897
10. Note:

- Tokyo Institute of Technology, in order to ensure a diverse workforce and further reinforce its education quality, research capabilities and organizational strength, grantees equal opportunities for individuals regardless of nationality or gender in all areas of research.
- Tokyo Institute of Technology is formulating a new education system to be launched in April 2016. The selected individual will be a faculty member at School of Engineering (Electrical and Electronic Engineering). <http://www.titech.ac.jp/english/education/reform/>
- The Tokyo Institute of Technology provides start-up funding through an internal support system, and successful applicants may have access to such a system.
